EXPERIENCE

Senior Front End Engineer **Noodle, Inc., New York City, NY**

January 2022 (Talent acquisition) - PRESENT

- Identified & implemented UX enhancements and features for proprietary CMS using Vue & multiple API endpoints
- Migrated university microsites from legacy systems to proprietary CM while maintaining and enhancing the framework with new features & components.

Senior Front End Engineer **Winston Project, LLC, New York City, NY**

July 2021 - December 2021 (Acquired by Noodle)

- Delivered production-ready front end framework from product design to production with modern technologies in first 90 days
- Led front-end project setup, design and ongoing maintenance of solutions with high degree of autonomy
- Developed performant, scalable and reusable UI components using Alpine JS, Tailwind CSS, & Eleventy

Front End Developer I - III **Kasasa, Ltd, Austin, TX — formerly Bancvue, Ltd**

February 2013 - July 2021

- Collaborated with Product, UX, SEO, Analytics, and Back End teams to continuously improve Kasasa's CMS and website products, prioritizing the user experience.
- Self-directed rebuild of front end framework into Bootstrap, decreasing team development time for site builds by an additional 30%
- Lead developer on a special project team tasked with migrating 140+ websites into proprietary CMS, completing corporate goals within 6 months.
- Led project to launch sites in new enterprise-level CMS (dotCMS), including writing documentation and working closely with backend developers to determine product requirements
- Developed pixel-perfect websites from design mockups into a proprietary CMS using HTML5, CSS, and jQuery/Javascript, responsive web design, SEO & accessibility best practices
